

Newsletter Employment Law Harlay Avocats | December 2022

In France, all companies have until December 12, 2022, to register for the AT/MP account on net-entreprises.fr

Indeed, since January 1, 2022, all employers, regardless of their workforce, must meet this obligation.

Note that the AT/MP account gives companies access to a number of free services:

- individual assessment of professional risks allowing to compare with other companies of the same size and activity;
- online application service for VSB Prevention Grants;
- or recently recognized work-related accidents and illnesses that impact future rates.

Failure to register by December 12, 2022, may result in penalties ranging from €200 to nearly €620 per employee, depending on the number of employees.

Make sure you have done your homework!
